

The Southport Artistry Committee was founded in July of 2010 with the help of the City of Southport to support local arts and give artists a chance to share their work and connect. Our mission is to foster community pride, appreciation and involvement in the Arts. We strive to do this through a variety of artistic programs and events, and are proactive in providing art education, and other artistic opportunities of the highest quality for the enjoyment, enrichment and ongoing participation of our community residents and patrons.

Join us the first Thursday of each month at the Southport Community Center for fun and support. Help to bring the arts to Southport, and show case your talent.

## Southport Artistry Committee Member Application

**Active Member**

Active members are individuals that would like to take an active role in project and event activity including planning, participating, and volunteering. Active members may hold a committee office and may be on call for any Committee needs. Active members must volunteer for at least one major committee event or lead a committee approved project of their own to retain Active member status and receive extra benefits. Active members are given their own online gallery page on the SoArt website at the Artline Administrator's discretion after retaining active status in the yearly review in December (meaning active members earn their own profile page into the 2nd year of their membership not immediately upon joining). Active member online profiles are a free privilege earned by volunteering, but must adhere to the SoArt website guidelines.

**Associate Member**

Associate members are any individual that is interested in supporting the Arts and participating in various activities held by the Artistry Committee on an as needed or available basis.
